

PWP Door System Sliding door

 PWP SA

PWP Door System

Features of the PWP sliding door:

- reliable sliding door system, suitable for all types of truck bodies
- lesser parts, therefore little maintaining- and operating costs
- easy and quick to operate (one-hand operation)
- recessed lock
- safe locking arrangement also with under load
- door runs in a top rail: no bottom rail necessary
- low weight
- adjustable to customer demands due to modular system
- meet all European safety regulations

PWP – the value is in the detail
