Join Our Weight Loss Programme

Due to increased demand for lighter tare weight BPW Transpec are now able to provide a lightweight Aluminium Hub to suit 10/285 and coupled with our TSB Disc brake axles we are able to meet that demand without losing the trusted & proven reliability BPW Transpec offers.

BPW Transpec's alloy hubs in combination with our disc brakes will save you up to 130kg over a Tri-axle configuration compared to our steel hub and drum brake option. Production has already started, click [HERE](#) to view.

Let's discuss-
Regards,

TRANSPEC
