

## BPW Transpec Answers to PBS Vehicles and Improved Roll Stability

BPW Transpec has released two new spring trailing arms for AL2 air suspensions with improved roll stiffness ratings. The new spring trailing arms are 65mm thick rather than the original 62mm thick. This improves roll stiffness by at least 25%.

05.082.14.43.2 (AO + AU)

05.082.14.44.2 (AM)

Original Spring	Replacement Spring	Use
1x62	1x65	
05.082.13.95.2	05.082.14.44.2	Already Standard in Australia
05.082.13.96.2	05.082.14.43.2	Available in 3-4 Months

These springs are available in the most common BPW suspension models currently available and can be substituted with no dimensional changes for the trailer builder.

Talk to our sales consultants or engineering team about solutions for your vehicle: -

- Higher rated spring trailing arms
- Adding stabilizer bars
- Wide track axles and single tyre applications
